Recovery*

LIBERTAE INC.
2019 Annual Report

**Nancy Wolf is
the CEO of
Libertae**

Libertae has a long history of successfully making treatment more responsive, accessible and relevant to women. In order to ensure successful outcomes, we support and empower women to adapt to changes in their environment and to take responsibility for their lives.

Since 1972, our community of caring professionals have empowered women and their families to maintain recovery through comprehensive treatment programs. Addiction recovery is an especially important treatment process for women because studies have suggested that they experience more difficulties compared to men.

Libertae has responded to this disparity by implementing a variety of programs using evidence-based, gender-informed treatment that considers the unique needs and personal history of each woman.

Our dedication to helping women, single, pregnant and with children, achieve long-term recovery is reflected in our additional

emphasis on accountability, transparency and community. We know that the right combination of treatment, therapy and soft skills is critical to successful recovery. However, it is the individual that determines the end result.

When women take responsibility for their recovery, Libertae provides them with every tool at our disposal to teach them how to live without the stigma of substance use disorders.

Whether it is short term, long term or outpatient recovery, our community is a safe place for women to form important bonds with each other on their journey to wellness.

As our clients learn to tap into their own inner strength as well as family support, a new lifestyle free of active addiction begins. In light of the increase and prevalence of persons with addictions today, Libertae continues to give women and their families access to recovery and wellness.

Nancy Wolf

SERVICES

GENDER INFORMED TREATMENT

Libertae uses a holistic model that helps women navigate through all the stages of recovery. Gender-informed treatment is evidence based and founded on research that considers both female biology and personal history.

SOCIAL SERVICES

Through a collaborative process of assessment, planning and advocacy, our staff identifies and assists each woman with services that help her achieve her recovery goals. We believe these resources are essential because they support the post-recovery process of independent living and social functioning.

FAMILY SERVICES

Our main focus is to encourage healthy parenting, mother-child bonding and family functioning. Pregnant women receive access to prenatal care, life skills counselors and a community of women who provide support during and after birth.

OUTPATIENT SERVICES

The Libertae Wellness & Recovery Center is designed for women who do not require the more intensive services available in our long-term residential recovery communities but can still benefit from a focused treatment plan.

FACILITIES

- Main Building
- Oupatient Center
- Liberty House
- Crossroads

DEPARTMENTS
